

European Museum Academy

## 2023 EMA ANNUAL PROGRAMME

2022 turned into an almost normal year for the museum sector in Europe and worldwide after the Corona pandemic has eased off. This situation allowed the European Museum Academy to make physical jury visits to museums for the many awards as well as holding a wonderful face-to-face award ceremony along with an enlightening conference. We look forward to continuing this work in 2023.

The European Museum Academy attracts great interest from many organizations and people around us. At the same time the state of the museums at large determines the situation of the Academy. In 2023 we expect to be able to engage even more with our well established and widely recognized work, ranging from award schemes to participating in research and development projects in the museum and heritage field.

At the same time, it is important to secure our base financially as well as in terms of human resources. The heart of the European Museum Academy continues to be a voluntary group of museum experts from all over the continent, and as such we engage in collaborating with many different partners and supporters to further develop the museums in Europe.

Welcome to 2023! Let us get on with the work!

Karl Borromäus Murr

Chair

### Main Partners:
